DESIGN IN HOUSTON

# A Team Effort

**Fearless in the face of chaos, Jennifer Kizzee and her team tackle interior design with confidence.**

In any construction or design project, speed bumps can quickly arise, threatening to halt progress. Young and resourceful, the team at Jennifer Kizzee Design (JKD) embraces the challenge head-on to create their client's dream design, whether it's a small project, full renovation, or new build. "We thrive in organized chaos," says Jennifer Kizzee, owner and principal designer. "It excites us."

To minimize the possibility of any mix-ups throughout the design process, the JKD team sits down with each client over multiple sessions to outline their dream design and their material preferences.

"We often collaborate with our clients for an extended period of time, and trust is an integral part of our relationship," says Kizzee. She ensures that each space is crafted with the client's best interests in mind. "When clients give us creative freedom, we can go above and beyond to deliver fresh, livable spaces that exceed their expectations," she adds.

Kizzee confidently infuses her designs with inspiration from her childhood in Mexico, where her love for modern coastal design was born. She and her team create bespoke spaces that are in line with each client's preference, whether it be traditional, transitional, or modern.

Stressing that living in a beautiful home is not exclusive to the uber-wealthy, her team believes that anyone can enjoy spending time at home, regardless of budget. "We know that design is not just about high-end materials," she says. "It's a lifestyle we're creating for our clients to enjoy for years to come."
