PRINCIPAL DESIGNER

"GREAT DESIGN ISN'T JUST SEEN—IT'S EXPERIENCED IN THE WAY A SPACE SUPPORTS EVERYDAY LIFE."

—Jennifer Kizzee

THE APPROACH

At Jennifer Kizzee Design, our approach is rooted in honesty, collaboration, and problem-solving. We guide our clients through complex renovations and new construction with a clear, thoughtful process that removes uncertainty and builds trust from the very beginning. Our team works closely with architects, builders, and trades to ensure every decision is not only beautiful, but executable. We anticipate challenges before they arise and present solutions with confidence, allowing our clients to feel supported at every stage.

We believe the design process should feel organized, efficient, and even enjoyable. By combining strong communication with a deep understanding of construction, we create a seamless experience that respects both the investment and the lifestyle of each client. The result is a space that feels intentional, personal, and built to last.

THE AESTHETIC

Our aesthetic is fresh, refined, and grounded in real life. We design spaces that feel elevated yet approachable—where clean lines, thoughtful contrast, and layered materials come together in a way that feels effortless. Rather than following trends, we focus on creating environments that reflect the people who live in them, blending function with a strong sense of style.
We are drawn to natural materials, tailored details, and balanced compositions that allow each element to stand on its own while contributing to a cohesive whole. Every project carries its own identity, but there is a consistent sense of calm confidence and casual elegance throughout our work. We believe great design should feel as good as it looks—welcoming, functional, and inspiring in the everyday moments of life.

THE GO-TOS

We rely on materials and partners that consistently deliver both beauty and performance. Natural stone is a cornerstone of our work, especially when used in a way that feels intentional and architectural. We value cabinetry and millwork that prioritize precision and proportion, knowing that these foundational elements set the tone for the entire space.

Lighting is another key layer—we approach it both functionally and artistically, using it to enhance how a space works while also creating moments of impact. Our vendor relationships are essential to our process, allowing us to source efficiently and maintain a high level of quality across every project.

At the core, our selections are guided by longevity, functionality, and the ability to support our clients' everyday lives. We don't just design for how a space looks—we design for how it lives.

THE MANTRA

We believe design is about more than creating something beautiful—it's about creating a better way to live. Every decision we make is guided by intention, from the smallest detail to the overall vision of a home. We value honesty, respect, and the relationships we build with our clients, knowing that trust is at the foundation of every successful project.

Our goal is to create spaces that support real life—where families gather, routines unfold, and memories are made. We approach each project with a balance of confidence and care, bringing both expertise and a down-to-earth perspective to the process.

At its best, design should feel effortless. When done well, it doesn't just transform a space—it enhances the everyday experience of living in it.

This powder bath embraces moody elegance with a richly patterned wallcovering that creates depth and drama. A marble vanity and fluted sink add softness, while warm brass fixtures and an oval mirror elevate the space. Layered textures and thoughtful details come together to create a refined, immersive, and memorable design moment.
